

FIRE EVACUATION PLAN FOR BARFOOT & THOMPSON STADIUM

Fire Evacuation Information

As seen in the diagram to the left, the assembly point is next to the Selwyn College Tennis Courts on the field.

From inside the stadium, in the event of a fire, an exit can be made out through one of our four emergency exit doors located in all four corners of the stadium (as shown on the diagram)

Upon exiting the stadium, you will need to assemble on the field and await further instructions by Barfoot & Thompson Stadium staff and assigned fire wardens.

More information on this process can be found in our Client health and safety manual via our website:
